

My name is Rich Dowd from Holden Mass. My wife Sharon and I have been members of this exciting group since 2019. I've have been retired for 4 years now after a 40 year career with The Coca- Cola Bottling Co. of NE and Atlanta GA. Now we have the time to thoroughly enjoy our retirement.

I have been a Thunderbird admirer for many years but could never find the right vehicle for us until December 2019. I purchased our 2005 Anniversary edition with 10,500 miles; we are enjoying every trip we take. It was a convertible at the time but I was able to purchase a hardtop (red) that looked like a perfect match. I've since kept her warm and dry in the NE weather.

We joined this group and have found many good stories and tips from the talented fellow members and found them very helpful. I depend on my fellow T- Bird owner's for your valuable input and share your experiences to learn a thing or two. I am not a mechanical person but will keep everything up to date and running as needed.
